- Accessibility and usability

Sign up for a FREE Website Evaluation today!

Is your website performing well?

Need to get more out of your website and have no idea where to start? Our Free Website Evaluation service is just what you need.

1. **Design** - We start by looking at the design. We look at your site for the following things: navigation, colors, call to action, usability, organization, social media integration, information, and overall design.
2. **Code** - We then go over the code and see if the code is written with best practices including using CSS & HTML validators as well as performing ping tests, speed tests, and more.
3. **SEO** - We then review your site for proper title tags, meta-tags, page ranking, anchor tags, backlinks, social networking usage, etc.
4. **Usability** - Finally, we review from the viewpoint of a real user of your website.

What we do.

If your website is in good shape, we will say so. If it's bad, we will let you know whats wrong and how we can help.

Our evaluation will evaluate...

- Content
- Information Architecture
- Graphic Design
- SEO
- Usability

The best part of this service is that it is 100% FREE!

In-Person Consultations Preferred!

For our local clients, we are available for in-person consultations. We can visit you or you can come to our office. We are located in Citrus Heights, CA (near Sacramento).
